~ *The Story of the Jewish Community*

In Grant County~~

Presented by:

Bill Munn, Grant County Historian

Acknowledgements

Our thanks to Bill Munn for this evening's program. Serving as Grant County Historian, Bill has made many significant contributions to the preservation of our local history, and he supports the efforts of Save Our Stories, a group dedicated to protecting historic structures, landscapes, and districts within the City of Marion.

In 1997 the W. K. Kellogg Foundation awarded a \$40,000 grant to fund a local history collaboration between Marion Community Schools, Marion Public Library, and the Community Foundation. Bill served as project director of the grant, which resulted in the formation of the Community History Project. Under his direction, WikiMarion.org is a website devoted to the history of Marion and surrounding areas, written by Marion High School students for the Community History Project.

Continued cooperation between the Marion Public Library, the Grant County Historical Society, and the Community History Project has resulted in important additions to our local history record.

Thank you, Bill - we appreciate your ongoing efforts to enrich our community.

Thanks also to those who helped with Annual Meeting arrangements and to all those who have served the Grant County Historical Society in so many ways during the 2015-2016 year.
